

Name _____ Class _____ Date _____

1 Plan my project

Words or drawings are both fine.

The problem or goal

What do I want to make or solve? Who does it affect?

My idea

What will my project do? What will it be called?

Who will use it?

Who is my audience? What do they need?

Pages and screens

What do they see first? What other pages does it need?

Buttons and actions

What buttons does it need? What happens when you click them?

Look and feel

Colours, mood, style

It should not...

Anything my project should never do

2 Write my first prompt

Fill in the gaps, then type it into the AI.

Build a _____ for _____

It helps them _____

On the first page, show _____

Add a button that _____

Make it look _____

3 Set my goal

My project will be successful when...

4 Test and improve

Try your project, get feedback, then prompt again.

	Round 1	Round 2
What I like Keep this		
What I want to fix or change		
My follow-up prompt What will I ask the AI to change?		

5 Final review

Check your own project, or give a partner feedback.

My project...	Not yet	Almost	Yes
Does what I planned, for the people I planned it for.	☐	☐	☐
Has the features I planned in my prompt, and every button works.	☐	☐	☐
Is easy for someone new to use without help.	☐	☐	☐
Works for everyone who will use it.	☐	☐	☐
Has been tested and improved at least twice using feedback.	☐	☐	☐
Only keeps the things the AI added that help my users.	☐	☐	☐
